Hi Sara,

I made a few minor changes (mostly putting Corps POCs in place).

Thanks,  
Mike

To: curtis.jennifer@epa.gov; Holley, Michiel E POA  
Subject: [EXTERNAL] High Priority Project Lists

Mike & Jennifer,

Please find attached the draft High Priority Project Lists for the March conference call, as amended by the EPA (highlighted in green) and the State (highlighted in blue).

Mike: please review and incorporate any edits to the attached drafts by March 7 - reply to both Jennifer and I. You can pick whichever color you like to denote ACOE edits (yellow, perhaps?). Though this is the first time we have tried it, highlighting substantive edits seems to strike a good balance - conference call participants want to know what has been changed but using track changes was a challenge.

Jennifer: if you can let me know of any additional or follow-up edits no later than March 11, I can make sure they make it into the lists before distributing to call participants.

Looks like the call will be mid-March or even late-March. If either of you have any questions about our edits, or other aspects of the documents and/or process, please do not hesitate to give me a call!

Sara Taylor

Large Project Coordinator

Office of Project Management and Permitting

Alaska Dep't of Natural Resources

(907)269-3645

## OIL AND GAS/ENERGY PROJECTS

Description & Link	Schedule	Federal	State
--------------------	----------	---------	-------

**Project Title:** Susitna-Watana Hydroelectric Project

**Lead Federal Agency:** FERC

**Responsible Person:** (1) State Lead: Marie Steele, (2) DEC Lead: William Ashton, (3) ADFG Lead: Joe Klein (4) NMFS Lead: Susan Walker (Mandatory Conditioning Agency) (5) USFWS Lead: Catherine Berg (Mandatory Conditioning Agency) (6) EPA Lead: Matt LaCroix (404), (7) Jennifer Curtis (PM/NEPA) (8) Corps Lead: Jason Berkner

<p>The Susitna-Watana Hydro Dam installed capacity would be 600 MW with the average annual generation determined to be 2600 GWhrs (HDR 2009). The reservoir would be 42 miles long and a maximum of 2 miles wide. Current dam height anticipated to be 735'. The project proponent is Alaska Energy Authority (AEA) and OPMP is coordinating state agency involvement. Governor Sean Parnell has publicly endorsed the project.</p> <p><a href="http://susitna-watanahydro.org/Description.html">http://susitna-watanahydro.org/Description.html</a>.</p>	<p>Due to impacts of Governor's FY15 budget, proponent asked for an extension on filing the Initial Study Report (ISR), which details the results of the first season of study and plans for the second season. FERC granted the delayed filing and added an additional 120-day comment period. The sections of the ISR that are currently complete have been posted on the project website and were filed with FERC on 3 February 2014. To avoid confusion with the final ISR to be filed with FERC on 3 June 2014, the proponent has titled the incomplete ISR a "Draft ISR". It is important for stakeholders to recognize that these posted sections of the ISR are complete and ready for review, although no formal FERC comment period is currently open.</p> <p>Proponent is currently prioritizing critical activities for 2014 and plans to meet with state, federal and other stakeholders to prioritize activities for 2014.</p> <p>Proponent is working diligently to resolve land issues and hopes to have a resolution soon.</p> <p>New dates: Feb 2016: Updated Study Report (USR) Dec 2016: License application</p>	<p>EPA, COE and USDA-RUS are Cooperating Agencies on the FERC EIS.</p>	<p>Governor's budget as a priority indicates the department's budget is currently legislated and increased.</p>

## OIL AND GAS/ENERGY PROJECTS

Description & Link	Schedule	Federal	State
--------------------	----------	---------	-------

**Project Title:** NMFS/BOEM Effects of Oil and Gas Activities in the Arctic Ocean EIS

**Lead Federal Agency:**

**Responsible Person:** (1) State Lead: Sara Longan, (2) DEC Lead: Gary Mendivil, (3) EPA Lead: Jennifer Curtis (NEPA)

<p>On March 21, 2013, NOAA and the Bureau of Ocean Energy Management (BOEM) announced the release of the Supplemental Draft Environmental Impact Statement (EIS) for the Effects of Oil and Gas Activities in the Arctic Ocean, which analyzes how a broad range of potential offshore oil and gas activities in the Arctic could affect marine mammals, other resources, and Alaska Native communities.</p> <p>NOAA and BOEM's new analysis follows comments received from stakeholders after release of the initial draft EIS issued in December 2011. The original draft analyzed up to two exploratory drilling programs per year in both the Chukchi and Beaufort seas. The supplemental draft EIS analyzes the effects of up to four drilling programs per year in each area--providing an opportunity to assess potential individual and cumulative impacts.</p> <p><a href="http://www.nmfs.noaa.gov/pr/permits/eis/arctic.htm">http://www.nmfs.noaa.gov/pr/permits/eis/arctic.htm</a></p>	<p>Draft Supplemental EIS public comment period closed June 27, 2013.</p> <p>NMFS is currently drafting preliminary FEIS for agency review in Feb 2014.</p>	<p>EPA recently responded to an Earthjustice FOIA involving the NMFS Arctic Draft SEIS.</p>	<p>State of Alaska is questioning the process, since they were not consulted during the EIS processes.</p> <p>NMFS recently announced preliminary draft EIS for State review before it is released for review.</p>
--	---	---	--

**Project Title:** Alpine Satellites Development Great Moose's Tooth -1 (GMT-1) Supplemental EIS

**Lead Federal Agency:** BLM

**Responsible Person:** (1) State Lead: Jeff Bruno, (2) EPA Leads: Jennifer Curtis (NEPA), (3) Gayle Martin (404), (4) Corps Lead: Hank Baij, (5) DEC Lead: Gary Mendivil

<p>In NPR-A: Up to 33 wells, production and injection with 7.8 mile road to connect to CD-5, pipe to connect to CD-1. BLM preparing a supplemental EIS. ## OIL AND GAS/ENERGY PROJECTS

Description & Link	Schedule	Federal	State
published Aug 2013.  EPA, COE, NSB, FWS, State and Native Village of Nuiqsut are cooperating agencies. The Native Village of Nuiqsut is also engaged in government to government consultations with BLM on this project.	PDSEIS 12/6/13. Several sections still needed to be updated (birds, fish, air).	BLM published a Notice of Availability for the Final SEIS on February 21, 2014, initiating a 60-day review period. Comments are due April 22.	

**Project Title:** Nuiqsut Spur Road

**Lead Federal Agency:** COE

**Responsible Person:** (1) EPA: Gayle Martin (404), (2) Corps: Hank Baij

A spur road to connect the Village of Nuiqsut with the road currently under development near CD-5.	Complete decision document week of Mar 10, 2014.	EPA issued 3(a) and 3(b) letters. EPA reviewed the applicant's functional assessment in December 2013, and awaits the draft decision document from the Corps under 404(q) procedures.	
--	--	---	--

**Project Title:** Foothills West Access Project EIS (Road to Umiat)/LINC Umiat Development

**Lead Federal Agency:** COE

**Responsible Person:** (1) State Lead: Sara Longan, (2) DEC Lead: Gary Mendivil, (3) EPA Leads: Gayle Martin (404), (4) Jennifer Curtis (NEPA), (5) Corps Lead: Melissa Riordan, (6) Alaska DOT Lead: Ryan Anderson

Alaska DOT was applying to build the road from the Dalton Highway to Umiat, in the foothills of the Brooks Range, in order to open the area for resource (oil and gas) extraction. Corps of Engineers is in the scoping stage of the EIS development.  AECOM, the consultant on the EIS developed six alternatives and after review and screening, will carry forward the following three alternatives in the NEPA impact assessment process: (1) Galbraith Alternative (applicant's proposed action), (2) Pump Station 2 Alternative, and (3) Meltwater Route Alternative.  LINC is applying to build a road and pipeline to Umiat, in the foothills of the Brooks Range.	An EIS scoping report was issued in February 2012 and the draft EIS was anticipated for Fall 2013.  In July 2013, ADOT retracted 404 permit, placing it on hold to be resurrected in the future if industry is not successful in building a road to Umiat.  LINC may plan another year of exploration before resuming permitting effort. COE may shortly issue PN that permitting is on hold.	Federal permits required:  Corps: Section 404 wetlands, Section 106 Historical, Section 10 Rivers  EPA: Section 404 permit review  USFWS: Section 7 ESA  USCG: Permit for bridge over navigable waters  The Corps issued an email in December 2013, indicating that they have suspended work on this project and have closed the EIS file. ## FEDERAL MANAGEMENT PLANS

Description & Link	Schedule	Federal	State
--------------------	----------	---------	-------

**Project Title:** Tongass National Forest Plan Revision and EIS

**Lead Federal Agency:** USFS

**Responsible Person:** (1) State Lead: Kyle Moselle, (2) EPA Lead: Jennifer Curtis (NEPA)

<p>The State was a cooperating agency in the development of the 2008 amended Tongass Forest Plan. The 1982 Planning Rule requires a 5-year review be conducted. The USFS completed the review in Sept 2013. The State provided consolidated comments as part of the review process.</p> <p>The USFS announced its intention to modify the Tongass Forest Plan in Oct 2013.  <a href="http://www.fs.usda.gov/Internet/FSE_DOCUMENTS/stelprdb5445763.pdf">http://www.fs.usda.gov/Internet/FSE_DOCUMENTS/stelprdb5445763.pdf</a></p> <p>Jan 13, 2014, the USDA published a Notice of Intent (79 Fed. Reg. No. 8) to establish an advisory committee under FACA "to provide advice and recommendations for developing an ecologically, socially and economically sustainable forest management strategy on the Tongass National Forest with an emphasis on young growth management."</p>	<p>Written nominations to the Tongass Advisory Committee (TAC) are due Feb 27, 2014. Estimates are that the TAC will convene late summer 2014.</p> <p>In order to stay under the 1982 Planning Rule, the USFS must initiate NEPA on the Tongass Forest Plan amendment no later than May 9, 2015, per 36 CFR 219.17.</p>		<p>The GO is consistent with participation on the decision has been made by 2/19/14.</p> <p>The State Tongass National Forest Plan to review and develop a management plan for the Tongass. R from DFG-Habitat Management participated on the teams (IDT) with project-level review. OPMP Coordinators will conduct joint-review teams on those same projects to ensure quality of NEPA Plan compliance.</p>

## FEDERAL MANAGEMENT PLANS

Description & Link	Schedule	Federal	State
--------------------	----------	---------	-------

**Project Title:** Eastern Interior Resource Management Plan (RMP)

**Lead Federal Agency:** BLM

**Responsible Person:** (1) State Lead: Samantha Carroll, (2) EPA Lead: Jennifer Curtis (NEPA)

This land use plan encompasses the Steese National Conservation Area, the White Mt. National Recreation Area, the Fortymile National Wild and Scenic River Corridor, and the public lands in the Upper Black River subunit.	<p>DEIS was published on 3/3/12.</p> <p>1/11/13 released a supplement to address hardrock mineral leasing in the White Mt. NRA.</p> <p>Public comment on the DEIS and supplement ended on 4/11/13.</p>	EPA rated the DEIS Lack of Objections (LO) and the SDEIS Environmental Concerns-Adequate Information (EC-1).	
---	--	--	--

**Project Title:** East Alaska RMP/ Delta River EA amendment

**Lead Federal Agency:** BLM

**Responsible Person:** (1) State Lead: Samantha Carroll

This land use plan amendment revises the 1983 Delta River Management Plan and includes decision for the Delta River Special Recreation Management Area.	<p>FONSI, ROD and approved plan were signed on 3/29/13.</p> <p>Federal register notice – plan takes affect.</p>		Delta River SMA inconsistent with consistency revision plan.
---	---	--	--

## FEDERAL MANAGEMENT PLANS

Description & Link	Schedule	Federal	State
--------------------	----------	---------	-------

**Project Title:** Ring of Fire RMP/ Haines Block Supplemental EIS

**Lead Federal Agency:** BLM

**Responsible Person:** (1) State Lead: Samantha Carroll, (2) EPA Lead: Jennifer Curtis (NEPA)

Plan considers portion of the Haines planning block and if it meets the requirements for: 1) designation as an Area of Critical Environmental Concern (ACEC); 2) whether to retain the Haines Block Special Recreation Management Area designation and; 3) to analyze the effects of aviation-supported guiding services.	DEIS comment period closed 3/14/13.  FEIS release is anticipated for late summer 2013.	EPA rated the SDEIS Lack of Objection (LO).	.
---	--	---	---

**Project Title:** Bering Sea – Western Interior RMP

**Lead Federal Agency:** BLM

**Responsible Person:** (1) State Lead: Samantha Carroll, (2) EPA Lead: Jennifer Curtis (NEPA)

This plan encompasses approx. 62 million acres, of which only 10.6 million acres constitute BLM lands.	Scoping comments are due January 17, 2014.	EPA submitted scoping comments Jan 2014.	
--	--	--	--

## FEDERAL MANAGEMENT PLANS

Description & Link	Schedule	Federal	State
--------------------	----------	---------	-------

**Project Title:** Central Yukon RMP EIS

**Lead Federal Agency:** BLM

**Responsible Person:** (1) State Lead: Samantha Carroll, (2) EPA Lead: Jennifer Curtis (NEPA)

This land use plan will revise and replace the Utility Corridor RMP, the Central Yukon RMP and parts of the Southwest Management Framework Plan.	Preplan was signed in April 2013.  Scoping comments are due January 17, 2014.	EPA submitted scoping comments Jan 2014.	
--	---	--	--

**Project Title:** Kobuk Seward RMP/Squirrel River EA amendment

**Lead Federal Agency:** BLM

**Responsible Person:** (1) State Lead: Samantha Carroll

The EA will re-evaluate the SRMA designation, define travel management network, and make implementation level decisions on user conflicts.	Scoping Report is complete.  BLM is drafting RMP amendment.		
--	---	--	--

## MINING PROJECTS

Description & Link	Schedule	Federal
<p><b>Project Title:</b> Greens Creek Mine</p> <p><b>Lead Federal Agency:</b> USFS</p> <p><b>Responsible Person:</b> (1) State Lead: Large Mine Project Team; OPMP Coordinator: Kyle Moselle, (2) DEC Leads: Allan Nakanishi (WW), (3) Doug Buteyn (SW), (4) Tim Pilon (APDES), (5) DFG Lead: Kate Kanouse, (6) EPA Leads: Lynne Hood (NEPA), (7) Cindi Godsey (WW), (8) TBD (404), (9) Lorraine Edmond, (10) Corps Lead: Matthew Brody, (11) Hecla contacts: Chris Wallace (Env), (12) Scott Hartman (General Mgr), (13) USFS Lead: Sarah Samuelson</p>		
<p>The Greens Creek Mine is a silver-zinc-lead mine operated by Hecla Greens Creek Mining Company and located about 18 miles southwest of Juneau on Admiralty Island within a non-wilderness portion of the Admiralty Island National Monument. Based on known and anticipated ore reserves, the mine has a remaining life of approximately 22 years. The recent decision by the USFS for expansion of the tailings facility projects 10 years of capacity based on current production levels.</p>	<p>Bonding MOU with USFS and SOA being revised. Expected April 2014.</p> <p>In Jan 2014, USFS, SOA and Hecla reached agreement in principle on Financial Assurance (FA) amount (~\$100m) for reclamation and long-term care and maintenance activities for current disturbance and tailings expansion. Waste Mgmt Permit (WMP) public comment period expected to start April 2014. Reclamation Plan and FA amounts will be noticed with WMP.</p> <p>Expect public comment period on amended APDES in early 2014.</p> <p>Proponent plans to grub for tailings expansion fall 2014, start construction spring 2015, and complete construction fall 2016 (pending state and federal permits).</p>	<p>FEIS &amp; Record of Decision (ROD) issued Sept 9, 2013. USFS chose a modified Alternative D (18 acre expansion of existing drystack w/ no diversion of Tributary Creek). The Corps will separately conduct 404(b)(1) analysis and wetland mitigation. SEACC and Kootznoowoo filed an appeals on the ROD on Oct 28, 2013. ROD affirmed by Regional Forester Dec 2013.</p> <p>The Corps received a 404 permit application on Dec. 24, 2013.</p> <p>EPA issued letter on Final EIS acknowledging issues being resolved with the exception of Financial Assurance (FA). Comments regarding the outstanding FA issue referred to resolution through our involvement in the review post-NEPA. USFS is currently engaging EPA in review and discussions regarding finalizing FA.</p>

## MINING PROJECTS

Description & Link	Schedule	Federal
--------------------	----------	---------

**Project Title:** Red Dog Zn-Pb

**Lead Federal Agency:** Corps

**Responsible Person:** (1) State Lead: Large Mine Project Team; OPMP Coordinator: Jack DiMarchi, (2) DEC Leads: Tim Pilon, (3) Pete McGee, (4) DF&G Lead: Bill Morris, (5) DNR Lead: Brent Martellero, (6) Corps Lead: Don Kuhle, (7) EPA Lead: Cindi Godsey (8) Teck Alaska: Chris Eckert, (9) Chris Menefee (Env), (10) Henri Letient (Gen. Mgr)

One of AK's longest operating open pit mines and one of the world's largest zinc-lead deposits. The mine is located in northwestern Alaska, approximately 82 miles north of Kotzebue, and 46 miles inland from the coast of the Chukchi Sea. It has been operating continuously since its opening in 1989. In 2009 it received Federal and State approvals to expand into the Aqqaluk deposit.	<p>The mine is in the process of getting APDES permits for the mine water discharge and the port facility discharge.</p> <p>Mine raised main dam in 2013 and will again in 2014</p> <p>Next major action: Completion of environmental audit report (1Q 2014) and review/approval of new Reclamation &amp; Closure Plan and Integrated Waste Management Permit – with new permits being issued in 1Q 2015.</p> <p>Ongoing Actions related to dam performance</p>	<p>The NPDES permit was appealed to the EPA's Environmental Appeals Board and was upheld.</p> <p>The Corps issued 404 permit for main dam raise in November 2013.</p>	<p>Public Comment period for the APDES permit closed on Feb 3, 2014.</p> <p>State agencies are presently reviewing the draft environmental audit of the mine.</p> <p>In fall 2011, Dam Safety issued an NOV for design issues on the dam and the certificate to operate. A dam safety review panel released report in October 2012. The panel was a condition of the Dam Safety NOV. Currently the State is waiting for the technical report from the review panel. Company also performed Willowstick geophysical survey in attempt to identify seepage zones in subsurface – Report has been provided to State and is under review</p> <p>Mine staff met with LMPT team in Anchorage on Feb 4, 2014 to review the Willowstick survey results and be briefed on other dam related and water management related activities at the mine.</p>
--	---	---	---

## MINING PROJECTS

Description & Link	Schedule	Federal
<p><b>Project Title:</b> Chuitna Coal Project Supplemental EIS</p> <p><b>Lead Federal Agency:</b> Corps</p> <p><b>Responsible Person:</b> (1) State Lead: Large Mine Project Team; OPMP Coordinator: Sara Taylor, (2) DEC Lead: Allan Nakanishi (WW), (3) DMLW Lead: Russ Kirkham, (4) DHSS Lead: Dr. Paul Anderson, (5) EPA Leads: Jamey Stoddard (WW), (6) Erik Peterson (NEPA), (7) Matt LaCroix (404), (8) Corps Leads: Heidi Firstencel, (9) Shane McCoy</p> <p>This proposed surface coal mine is located 45 miles west of Anchorage near Tyonek. The proposed 300-million ton project would extract low sulfur sub-bituminous coal from the Beluga Coal Field. Project prediction is for a minimum 25-year life of the mine with a production rate of up to 12 million tons per year for export.</p> <p>The project was previously permitted in the 1990's, but not developed. Subsequent project changes have mandated a SEIS. The current NEPA/permitting process commenced in 2006 with EPA as the lead agency.</p> <p>In late 2010, the Corps assumed the lead agency role because the State assumed authority for NPDES (APDES) permitting for mining projects on Oct 31, 2010.</p> <p>Project has been the subject of multiple challenges; controversy surrounding potential removal of ~11 miles, with subsequent restoration, of a salmon stream (#2003) that is a tributary to the Chuit River. Superior Court ruled DNR must document how it considers Instream Flow Applications when making decisions on TWUP issuances.</p> <p>EPA, SOA, NMFS &amp; NVT are Cooperating Agencies. Tuesday Co-op Agency mtg hosted by the Corps.</p> <p><a href="http://www.chuitnaseis.com">www.chuitnaseis.com</a></p>	<p>No permits have been issued. Awaiting completed ASCMCRA permit applications.</p> <p>Federal permitting will begin once SEIS is completed. The Corps would like to complete the draft SEIS in September 2014.</p>	<p>Site specific criteria scheduled for adoption by the end of 2014.</p> <p>The Corps is revisiting the purpose and need statement and may redefine it more broadly. The current purpose and need statement may be overly restrictive and may be precluding consideration of reasonable alternatives. The Corps is developing a cost matrix template for mine design alternatives.</p> <p>Pac Rim Coal has responded to requests for alternatives to be considered in SEIS. Pile supported bulkhead is being considered.</p> <p>EPA is reviewing the latest draft of the wetlands functional assessment. Comments are due end of January.</p> <p>The Corps continues to work through the Section 106 process with consulting parties. The Advisory Council on Historic Preservation has raised the question of whether the project area constitutes a Traditional Cultural Property, and has indicated that the broader cultural landscape may be of more central importance than the archaeological district.</p> <p>Steve Braund is conducting additional cultural resource investigations with revised project component areas (elevated conveyor, camp/airstrip, etc.).</p>

**Project Title:** Pogo Mine

**Lead Federal Agency:** Corps

## MINING PROJECTS

Description & Link	Schedule	Federal
<p><b>Responsible Person:</b> (1) State Lead: Large Mine Project Team; OPMP Coordinator: Jack DiMarchi, (2) DEC Lead: Tim Pilon (WW), (3) DNR Lead: Brent Martellaro, (4) EPA Leads: Cindi Godsey (WW), (5) Matt LaCroix (404), (6) Corps Lead: Ben Soiseth (7) Sumitomo: Sally McLeod (Env.), (8) Chris Kennedy (Gen. Mgr)</p>		
<p>This conventional underground gold mine is located 90 miles southeast of Fairbanks. Delta Junction is 40 miles southwest. Sumitomo Metal Mining LLC is the project owner. They have continued to add to their resource and the mine will be in operation beyond the original plan of 10 years. The owner is now developing access to the East Deep ore and designing a third water treatment plant in order to increase their treatment capacity to 600 gpm from the current 450 gpm</p>	<p>Critical scheduling items for the mine include increasing their water treatment capacity from 450gpm to 600 gpm by EOY 2014.</p> <p>Mine anticipates constructing new water treatment plant by year-end 2014.</p>	<p>The Corps recently issued 404 permit for 0.15 acres wetland disturbance associated with planned construction of WTP#3.</p> <p>DEC is reviewing the mine's modification plans. The mine is currently seeking a new permit.</p>

## MINING PROJECTS

Description & Link	Schedule	Federal
--------------------	----------	---------

**Project Title:** Fort Knox Mine

**Lead Federal Agency:**

**Responsible Person:** (1) State Lead: Large Mine Project Team; OPMP Coordinator: Tom Crafford, (2) DEC Leads: Tim Pilon (WW), (3) Ken Spires (SW), (4) EPA Lead: Cindi Godsey (WW), (5) Corps Lead: Ben Soiseth

Open-pit gold mine located 26 miles NE of Fairbanks; produces 330,000 ounces of gold/year. Located on State of Alaska Mental Health Trust lands. Operator is Fairbanks Gold Mine, Inc (FGMI), a subsidiary of Kinross Gold Corp. Project includes a conventional gold milling operation and a large valley-fill heap leach.  FGMI is initiating a feasibility study for the Gil deposit, about 8 mi. E of Fort Knox.  Recent exploration results were very positive	Critical path for Fort Knox is getting the Integrated Waste Management Permit, Plan of Ops, Reclamation & Closure (R&C) Plan and Millsite Lease all renewed by March 2014. Tese approvals will include the expansion for the Walter Creek Heap Leach	Mine has met with the Corps to discuss wetlands loss and gain (from new wetlands on reclaimed tailings).	Agency review Reclamation & waste manager  State agencies with new R&C Management P 30-day notice p
---	--	--	--

**Project Title:** Gil Project

**Lead Federal Agency:** NA

**Responsible Person:** (1) State Lead: Large Mine Project Team; OPMP Coordinator: Tom Crafford, (2) DEC Lead: Tim Pilon (WW), (3) Ken Spires (SW), (4) Corps Leads: Ben Soiseth, (5) Ellen Lyons

Gil is a gold deposit owned by Kinross (owner of Fort Knox) and is 6 miles east of Fort Knox . Concept is development of open pit with associated valley-fill heap leach. Would be largely stand-alone project, but project description pending forthcoming feasibility study which will contemplate options of jointly using certain portions of the Fort Knox Mill for final gold recovery or trucking some of the run-of-mine ore to Fort Knox for processing. Gil has backed off from feasibility study. Plan for more drilling this summer.

## MINING PROJECTS

Description & Link	Schedule	Federal
<p><b>Project Title:</b> Donlin Gold Project</p> <p><b>Lead Federal Agency:</b> Corps</p> <p><b>Responsible Person:</b> (1) State Lead: Large Mine Project Team; OPMP Coordinator: Jeff Bruno, (2) DEC Leads: Gary Mendivil; (3) Renee Evans (WW), (4) Lori Aldridge (SW), (5) ADFG Leads: Bill Morris, (6) Jim Simons, (7) Lee McKinley, (8) EPA Leads: Mark Jen (PM) and (404), (9) Cindi Godsey (WW), (10) Corps Lead: Don Kuhle</p>		
<p>The proposed Donlin Gold Mine is located near the Kuskokwim River Village of Crooked Creek in Southwest Alaska, approximately 120 miles upstream from Bethel. It is a large (on the order of 40 million ounces of gold), undeveloped refractory gold deposit on lands owned by the Kuskokwim Village Corporation (surface) and Calista Regional Corporation (subsurface). The proposal is for an open pit mine measuring two miles wide and one mile wide. Project proponent is Donlin Gold Inc., a partnership of Barrick Gold Corp and NovaGold, Inc. They plan to build a 300+ mile natural gas pipeline to provide power for the mine operations. The Kuskokwim Basin is a mercury province and there are nearby mercury ore deposits with a history of production (Red Devil).</p> <p>Project proponent submitted 404 permit application in 2012 which started the EIS process. This could be the 1st time a mining project proposes perpetual water treatment as an initial permitting component. Estimated startup capital costs for the project are \$6.7 billion, including \$834 million for the natural gas pipeline.</p>	<p>DEIS – Apr 2015 FEIS – May 2016 ROD – July 2016</p> <p><a href="http://www.donlingoldeis.com">www.donlingoldeis.com</a></p>	<p>Prel. Draft Ch 2 Alternatives currently in review until Feb 24 2014.</p> <p>Evaluating Alternatives:</p> <ol style="list-style-type: none"> <li>1. Reducing diesel barging</li> <li>2. Port Site</li> <li>3. Tailings disposal methods/locations</li> <li>4. Gas pipeline alignments.</li> </ol> <p>Prel. Draft Ch 2 - Affected Environment release end of Feb 2014 for review.</p> <p>Workshop on Financial Assurance &amp; Bonding - Applicant commits including Financial information DEIS.</p>

**Project Title:** Pebble Cu-Au-Mo Project

**Lead Federal Agency:** Corps (likely)

**Responsible Person:** (1) State Lead: Large Mine Project Team; OPMP Coordinator: Jack DiMarchi, (2) DEC Leads: Allan Nakanishi (WW), (3) Lori Aldridge (SW), (4) EPA Leads: Rick Parkin (PM for BBWA), (5) Cindi Godsey (WW), (6) Heather Dean (404), (7) Corps Leads: Katie McCafferty, (8) Pebble Ltd. Partnership: Tim Havey

<p>Pebble Project is a very large copper-gold-molybdenum mineral deposit located 200 miles southwest of Anchorage on state land. It contains components that, if developed, would likely involve both a large open-pit surface mine and an underground block cave operation.</p>	<p>No permitting schedule presently – Project on care and maintenance status approximately seven years. Still in pre-application phase.</p>	<p>EPA released the final EIS for the Pebble Bay Watershed Assessment on January 15, 2014.</p> <p>PLP has written a letter</p>
--	---	--

## MINING PROJECTS

Description & Link	Schedule	Federal
<p>The project was in an advanced state of exploration, but is now in care &amp; maintenance status owing to departure of partner Anglo American who was funding the project as part of their earn-in agreement with owner Northern Dynasty Minerals.</p> <p>~27,000 pages of baseline study results for the time period 2004-2008 were previously released</p> <p>Proponent is the Pebble Limited Partnership (Anglo-American and Northern Dynasty). However, in September 2013 Anglo pulled out of the partnership. Northern Dynasty reduced staff in Anchorage and is seeking financial options.</p> <p>The project would require road access and a supply of power in addition to the project's mining footprint. Mine life could be 50-100 years, possibly more.</p> <p>The project is the focus of national attention/opposition. In response to a petition from nine tribal governments, EPA has initiated a watershed assessment of the Nushagak and Kvichak watersheds in Bristol Bay under the authority of Section 404(c) of the Clean Water Act.</p> <p>Rio Tinto has announced that it is re-evaluating its involvement in the project.</p>		<p>EPA's Region 10 Inspector General challenging the validity of the BBWA and requesting an investigation on the basis that the BLM is indefensible and biased and may violate the Information Quality Act. EPA's own IQA policies and EPA's risk assessment and peer review policies. The Corps of Engineers drafted a letter to the project proponents advising them that their proposed functional analyses for streams, wetlands, and marine waters are inadequate and will require adaptation/revision through the efforts of an interagency working group. The Interagency working group is engaged.</p>

**Project Title:** Livengood Project

**Lead Federal Agency:**

**Responsible Person:** (1) State Lead: Large Mine Project Team, (2) DEC Lead: Tim Pilon (WW), (3) ADF&G Lead: Bill Morris, (4) EPA Lead: Cindi Godsey, (5) Corps Lead: Lenore Heppler, (6) BLM Leads: Matthew Reece, (7) Ben Soiseth

<p>This gold mining project is located 70 miles northwest of Fairbanks. International Tower Hill (ITH) is proponent. Project was looking like a large open-pit deposit but feasibility study released July 2013 failed to meet expectations and project is now in care &amp; maintenance status while owner looks at options to improve project economics.</p>	<p>This project is in holding status pending financing. Camp/offices at site closed and all site work is handled out of Fairbanks ITH office.</p>		<p>Feasibility Study than anticipated activities reduced while company project description</p>
--	---	--	--

## MINING PROJECTS

Description & Link	Schedule	Federal
<p><b>Project Title:</b> Graphite One Project</p> <p><b>Lead Federal Agency:</b></p> <p><b>Responsible Person:</b> (1) State Lead: Jack DiMarchi, (2) DEC Lead: Tim Pilon , (3) ADF&amp;G Lead: Bill Morris , (4) EPA Lead: , (5) Corps Lead: Mike Holley , (6) BLM:</p> <p>Coarse graphite deposit located on north flank of Kigluaik Mtns, east of Teller.</p> <p>Initial drill results indicate this one of the largest coarse graphite resource on the planet.</p>		
	Start Environmental Baseline in 2014	Ore claims are Federal (BLM land manager) surrounded by S claims. The Corps and A considered this project when identifying and deep water port in NW Alaska.

## MINING PROJECTS

Description & Link	Schedule	Federal
<p><b>Project Title:</b> Usibelli Jumbo Dome Mine</p> <p><b>Lead Federal Agency:</b> ACOE</p> <p><b>Responsible Person:</b> (1) State Lead: Large Mine Project Team, (2) DEC Lead: Tim Pilon (WW), (3) DMLW Lead: Russ Kirkham, (4) EPA Lead: Gayle Martin (404), (5) Corps: Ben Soiseth</p> <p>The Usibelli Coal Mine is located near Healy and is expanding through the acquisition of state leases in an area known as Jumbo Dome. The coal is sub-bituminous C with very low sulfur content.</p> <p>Formal Surface Mining Control and Reclamation Act (SMCRA) permit has been submitted to DNR coal section for review. Permit application is currently undergoing completeness review. DEC is evaluating mine water management options. ADF&amp;G is working with the applicant on Title 16 fish passage permits.</p> <p>DEC staff met with Usibelli Coal Mine staff to discuss coverage under the Multi-Sector General Permit (MSGP). Usibelli claims the mine will have zero discharge and does not need coverage under the MSGP. DEC disagrees.</p>		
		<p>The Corps verified use of NWP 21 for the haul road portion of the project in December 2011 and for Term 1 of the mine in February 2012. NWP 21 expired in March 2012, and was reissued with a limit of 0.5 acres; nonetheless, a grandfather provision of the reissuance allowed surface coal mining activities that had been previously verified by the 2011 NWP 21 to be reauthorized without applying the new limit imposed on the reissued 2012 NWP 21 with re-verification by the Corps. The Corps re-verified Usibelli's use of NWP 21 for the haul road and Term 1 of the mine on December 21, 2016, with an expiration date of March 18, 2017.</p>

## MINING PROJECTS

Description & Link	Schedule	Federal
--------------------	----------	---------

**Project Title:** Usibelli Wishbone Hill Mine

**Lead Federal Agency:**

**Responsible Person:** (1) DEC Lead: Allan Nakanishi (WW), (2) DNR Lead: Russ Kirkham, (3)

EPA Lead: Cindi Godsey (WW), (4) Tami Fordham (Tribal), (5) Corps Lead: TBD

<p>Usibelli is seeking permits from the state in order to mine coal from 800 acres near Palmer and Sutton in the Matanuska Valley. Project is located on State Mental Health Trust and private lands. The mine would produce up to 500,000 tons of coal per year for 12 years. There is local concern about potential impacts from fugitive dust. The Native Village of Chickaloon has also voiced concern about potential impacts to drinking water, surface and groundwater, subsistence foods, and religious and cultural practices. Usibelli applied in a timely manner for a 5-year renewal of the Surface Mining permit that was set to expire in November, 2011. The original deadline for public comment on the permit renewal was October 14, but was extended to November 15 at the request of the local community. The DEC Air Quality Division was working with Usibelli on an air quality minor permit, but Usibelli withdrew the permit application in mid-October. Usibelli has since refiled its Air Quality permit application. A request for a detailed health impact assessment (HIA) was submitted to the Dept. of Health &amp; Social Services on June 13 after the department had completed a "draft rapid assessment". A similar request was attempted to be submitted through the Mat/Su Borough Assembly, but that request was denied</p>	<p>Air Permit (State)</p> <p>APDES Permit</p> <p>404 Permit (will trigger NEPA)</p>	
--	---	--

## MINING PROJECTS

Description & Link	Schedule	Federal
--------------------	----------	---------

**Project Title:** Niblack Project

**Lead Federal Agency:** TBD

**Responsible Person:** (1) State Lead: Large Mine Projects Team; OPMP Coordinator: Kyle Moselle, (2) DEC Leads: Renee Evans (WW), (3) Doug Buteyn (SW), (4) DFG Lead: Mark Minillo, (5) EPA Lead: Cindi Godsey, (6) Corps Lead: Nicole Hayes, (7) USFS Lead: Sarah Samuelson

<p>The Niblack Project is a copper-gold-silver-zinc prospect located on Prince of Wales Island southwest of Ketchikan. The proponent is Heatherdale Resources, a Hunter-Dickinson group company (HDI is also parent of Northern Dynasty). The Project is in an advanced exploration phase, including approval for up to 6,000 feet of underground tunneling and 25,000 feet of underground drilling. Niblack holds 6,200 acres of federal and state mineral claims and 250 acres of patented (private) land. All current disturbances are on patented land, but some surface exploration has occurred within the adjacent Inventoried Roadless Areas of the Tongass National Forest. DNR and the Forest Service approved additional geotechnical and exploration drilling in 2012, which the company conducted. However, the site has been in a temporary closure since Oct. 2012.</p> <p>Development proposals may include off-site processing of ore (two sites in Ketchikan are being considered). Power at the mine site could eventually come from hydroelectric resources.</p>	<p>Pre-application phase, advanced exploration</p> <p>Project is in temporary closure under existing WMP. Temporary closure expires Oct 2015. Further exploration activities pending funding.</p> <p>Nilback has proposed a marine discharge of existing contact water. Nilback is considering a proposal to modify the WMP to cap existing PAG material in place rather than move back underground, but no application has been submitted yet.</p>	<p>USFS approved surface exploration drilling in 2001 Inventoried Roadless Area #507 on June 7, 2012.</p>
--	---	---

## MINING PROJECTS

Description & Link	Schedule	Federal
<p><b>Project Title:</b> Rock Creek Mine [now Nanuuq Project under Bering Straits Native Corporation (BSNC)]</p> <p><b>Lead Federal Agency:</b></p> <p><b>Responsible Person:</b> (1) State Lead: Large Mine Projects Team; OPMP Coordinator: Jack DiMarchi, (2) DEC Leads: Tim Pilon (WW), (3) Doug Buteyn (SW), (4) DNR lead: Brent Martellaro (5) ADF&amp;G Lead: Laura Jacobs, (6) EPA Leads: Cindi Godsey, (7) Thor Cutler (UIC), (8) Corps Lead: <b>Mike Holley</b> (9) Lead for BSNC: Consultant Frank Bergstrom, (10) Harry Noah</p> <p>Consists of open-pit gold mines: Rock Creek Mine located six miles north of Nome and Big Hurrah Mine located 42 miles east of Nome. NovaGold transferred its subsidiary, Alaska Gold Co., which owns the project to Berings Straits Native Corp. on Nov 1, 2012. Big Hurrah Mine located on land owned by Alaska Gold Co. and surrounding lands owned by Salomon Native Corporation.</p> <p>A reclamation &amp; closure plan was approved in Feb, 2012.</p> <p>The State signed off on the Phase I reclamation and responsibility for Phase II transferred with Alaska Gold Co. to Bering Straits Native Corp (BSNC) on Nov 1 and \$6.8 million of the \$20.3 million financial assurances were released. The remainder remained with Alaska Gold Co. when it was transferred to BSNC.</p> <p>DNR/MLW will require new personal bond and eventually updates to the Reclamation plan to reflect Phase I completion. DEC Waste Mgmt Permit will expire and new monitoring plan will be required.</p>		
	<p>AGC &amp; financial assurances transferred Nov 1 to BSNC. State inspection of Phase I close was completed. Dam Safety has issued letter removing breached dam from state jurisdiction in August 2012.</p> <p>NovaGold submitted a final annual report on the project in March, 2013.</p> <p>BSNC continues to provide quarterly monitoring reports required by the permits.</p> <p>As of July 2013, no further efforts for at least a year for resumed mining of Rock Creek/Big Harrah under so-called Nanuuq Gold project based on financial and ore delineation issues.</p>	

## MINING PROJECTS

Description & Link	Schedule	Federal
<p><b>Project Title:</b> Kensington Gold Mine</p> <p><b>Lead Federal Agency:</b> USFS</p> <p><b>Responsible Person:</b> (1) State Lead: Large Mine Projects Team; OPMP Coordinator: Kyle Moselle (2) DEC Leads: Pete McGee (WW), (3) Doug Buteyn (SW), (4) DFG Lead: Kate Kanouse, (5) USFS Lead: Sarah Samuelson, (6) EPA Lead: Cindi Godsey, (7) Corps Lead: Randy Vigil</p>		
Gold mine operated by Coeur Alaska located 45 miles north of Juneau. Began production in June 2010 and expect to produce 125,000 ounces of gold per year.		

**Project Title:** Nixon Fork Mine

**Lead Federal Agency:** BLM

**Responsible Person:** (1) State Lead: Large Mine Projects Team; OPMP Coordinator: Jack DiMarchi, (2) DEC Leads: Tim Pilon (WW), (3) Lori Aldrich (EH/Solid Waste), (4) BLM leads: James Whitlock (compliance), (5) Alan Bittner (ANC Field Mgr), (6) EPA Lead: Cindi Godsey, (6) Fire River Gold: Blane Wilson (Gen. Mgr), (7) Larry Wilson (Env)

Consists of an underground gold mine located 32 miles northeast of McGrath. Located in an area of historic mining. Operator is Fire River Gold. Mine resumed production July 4, 2011 and made progress in improving project economics but the mine closed again in Fall 2013.	Current schedule is driven by completion/approval of the Temporary Closure Plan. The last State comments were sent to the company on Nov 18, 2013 – awaiting updated draft of plan. This should be the final draft.	BLM is a close participant in the closure approval process – If FRG adopts the latest changes to their temporary closure plan then the BLM will approve it concomittant with the State approving the same plan.	Final v Plan a 2014. on site  Updat put on is in te

## TRANSPORTATION PROJECTS

Description & Link	Schedule	Federal	State
--------------------	----------	---------	-------

**Project Title:** Northern Rail Extension

**Lead Federal Agency:** Surface Transportation Board

**Responsible Person:** (1) State Lead: Jeff Bruno, (2) EPA Lead: Matt LaCroix/Gayle Martin (404), (3) Corps

Lead: Ellen Lyons

Formatted: Width: 8.5", Height: 11"

<p>This project involves the construction of a new 80-mile rail line from North Pole to Delta Junction. The federal Surface Transportation Board completed an environmental impact statement (EIS) in 2009 and issued a Record of Decision in January 2010. EPA expressed concerns re: the purpose and need. Phase I of the project includes the construction of a new bridge across the Tanana River. In December 2010 the EPA declared the Tanana River an Aquatic Resource of National Significance (ARNI) and concluded that the project does not comply with the Clean Water Act Section 404(b)(1) guidelines and would have "substantial and unacceptable adverse effects on the Tanana River." Under a memorandum of agreement with the Army Corp of Engineers, EPA exercised their right to review the permit, but agreed in early June 2011 to allow the permit to go forward.</p>	<p>Construction of Phase 1 has begun and they hope to begin Phase II in the next fiscal year. Limited resource agency involvement at this point. ARRC has announced that navigation in the bridge area is prohibited until April 2014.</p> <p>Delays with Section 9 Permit (approval from US Coast Guard (USCG) for bridge construction) across the Tanana River have the RR concerned about project schedule. The USCG has identified this as a "high priority" but it is unclear to what that means as far as timing with the section 9 permit and could possibly delay the schedule if not issued in the near future.</p>	<p>Numerous permit mods (small acreages) in recent months for 2-year bridge construction.</p>	<p>Northern Rail is still working on segment 1 and has not received all the funding to start segment 2 and has ask OPMP to suspend funding until they receive more funding and start on segment 2.</p>

**Project Title:** Port Mackenzie Rail Extension

**Lead Federal Agency:** Surface Transportation Board

**Responsible Person:** (1) State Lead: Jeff Bruno, (2) EPA Lead: Matt LaCroix (404), (3) Corps Lead: Ben Soiseth

<p>This project proposes the construction of a 30 – 45 mile rail extension line from the Matanuska-Susitna Valley to Port MacKenzie in order to transport freight from Interior Alaska.</p>		<p>The federal Surface Transportation Board (STB) released the Final EIS on March 25, 2011. The STB released issued the Record of Decision (ROD) on November 21, 2011.</p>	<p>Current efforts are being focused on modifying and updating ADF&amp;G and DNR TWUP permits, satisfying the Mitigation Measures within the ROD, and fulfilling requirements of Programmatic Agreement with SHPO.</p>
---	--	--	--

TRANSPORTATION PROJECTS

Description & Link	Schedule	Federal	State
<p>The Mat-Su Borough and the State are working towards transferring the DNR land to the Borough and the easements are the next step within that process.</p> <p>Land transfers have both completed their administrative process to handle transferring the State land to the Borough through RADS. The transfer will not happen until the as built for the project is complete.</p>		<p>On January 26th, 2012, the FAA denied the Railroad access across the Big Lake VORTAC site. This is a State lease in which FAA has the right to deny incompatible uses. The project will likely need to find an alternative route around this tract of land. No alternative was evaluated for this scenario in the NEPA process.</p>	<p>SCRO issued a second EEA and construction for segments 1,3,4</p> <p>Currently MLW (Survey unit) along with DOT is processing the section line vacation application</p>

**Project Title:** Izembek Land Exchange EIS

**Lead Federal Agency:** USFWS

**Responsible Person:** (1) State Lead: Samantha Carroll, (2) DEC Lead: Gary Mendivil, (3) USFWS Lead: Stephanie Brady, (4) EPA Leads: Jennifer Curtis (NEPA), (5) Matt LaCroix (404), (6) Corps Lead: Heather Boyer

<p>Congress has approved the land exchange, but an EIS for the land exchange needs to be done for a single lane gravel road connecting the communities of King Cove and Cold Bay. USFWS (URS as contractor) has completed the FEIS but has yet to issue the Record of Decision (ROD). Secretary of the Interior will need to do a public interest determination if the land exchange is in the public interest.</p> <p>Cooperating Agencies: COE Federal Highway Administration/WFL SOA</p> <p>King Cove Corp: Aleutians East Borough, City of King Cove, Agdaagux Tribe of King Cove, and the Native Village of Belkofski.</p>		<p>December 23, 2013, Secretary of Interior Sally Jewel issued ROD/PID selecting "No Action" alternative.</p> <p>On January 15, 2014, Senator Begich introduced a new Izembek road bill.</p> <p>January 15, 2014, the King Cove group requested reconsideration of the ROD.</p> <p>In a letter dated January 17, 2014, Senator Murkowski, in concert with the King Cove group, also requested the Secretary reconsider her decision to reject the land exchange.</p> <p>To date (2/19/14), we have not heard from Secretary Jewell on the matter.</p>

**Project Title:** Knik Arm Crossing (KABATA)

**Lead Federal Agency:** Federal Highway Authority

**Responsible Person:** (1) State Lead: Sara Taylor, (2) EPA Lead: Matt LaCroix (404), (3) Corps Lead: Nicole Hayes

<p>The proposed project would build a 2.7 mile vehicular toll bridge across Knik Arm b/w the Port of Anchorage area and the Port Mackenzie area, including 19 miles of road to support the bridge's accessibility. This project is being developed to meet the current and projected transportation needs of Anchorage and the Mat-Su Borough and was identified as a high priority infrastructure project by the Governor in September 2003.</p> <p>The U.S. DOT, FHWA, Knik Arm Bridge &amp; Toll Authority and Alaska DOT are the lead agencies for this project. Final design and construction could be completed as early as 2018. Planners are currently working on obtaining properties and working with contractors scheduling surveys for the as-built completion.</p>	<p>Rep. Neuman introduced HB 23 related to bonding (\$600m) and reserve funds (\$10m); Rep. Huggins introduced an identical SB 13. While in House Rules, Rep. Costello proposed amending HB 23 to dismantle KABATA and transfer the project to AHFC. As amended, HB 23 passed the House 24-15-1; the bill was sent to Senate Finance (SB 13 had previously been referred to Finance, also). No action was taken on either bill before the first session closed.</p>	<p>NMFS issued a Section 10 No Jeopardy finding re: Cook Inlet Beluga Whales in November 2010.</p> <p>A FEIS was signed in December 2007 and a ROD was signed in December 2010.</p> <p>Muni and USCG permits contingent on 404 permit.</p> <p>404 public comment period closed December 2011.</p> <p>Army Corps 404 permit decision delayed due to ESA consultation issues (was due Sept 2013). Permit is expected Feb 2014. The Corps anticipates a contemplative ITA from NMFS.</p> <p>Best case scenario has LOA from NMFS issuing Oct 2014.</p>	<p>Section 401 Water Quality Cert issued by ADEC in September 2012.</p> <p>Submerged tideland easement from Southcentral Region issued in February 2013.</p> <p>Mental Health Trust Authority issued Best Interest Decision to sell small parcel near Point MacKenzie to KABATA, signed April 1, 2013.</p>

--------------------	----------	---------	-------

**Project Title:** Ambler Mining District Transportation Corridor  
**Lead Federal Agency:** COE  
**Responsible Person:** (1) State Lead: Marie Steele, (2) AIDEA Lead: Mark Davis, (3) DOT Lead: Ryan Andersen, (4) Corps Lead: Mary Romero (5) EPA Lead: Jennifer Curtis (NEPA), (6) Gayle Martin (404),

The Ambler Mining District Access project will evaluate potential transportation corridors serving the Ambler Mining District. The purpose is to provide all season access for exploration and development of potential resources within this district. The work will include the evaluation of transportation modes such as roads, rail, barge and airport networks. The transportation corridor will also address critical infrastructure needs for the development of natural resources such as power generation and communications. ADOT project manager is Ryan Andersen; ADOT Environmental contact is Bruce Campbell. An OPMP funding RSA is in place with AIDEA.  Proposed funding for FY14: \$8.5M	Project currently in pre-application phase consulting with federal, state and local entities. Community meetings have been recently held on the eastern end of the corridor to update area residents on project status.	Pre-application meeting with federal agencies currently in development.	Project is working with ADF&G, DOT and UAF on baseline environmental studies.

**Project Title:** Juneau Access Road

**Lead Federal Agency:** COE

**Responsible Person:** (1) State Lead: Kyle Moselle, (2) DEC Lead : NA, (3) DOT Lead: Reuben Yost, (4) EPA

Lead: Jennifer Curtis (NEPA), (5) **Becky Fauver** (404), (6) Corps Lead: Randy Vigil

On September 14, 2011 the Alaska Department of Transportation and Public Facilities (DOT&PF) announced that it will begin the process with the Federal Highway Administration (FHWA) to complete a supplemental Environmental Impact Statement (SEIS) for the Juneau Access Improvements project. The SEIS will fully evaluate a stand-alone alternative that improves service in Lynn Canal using existing AMHS assets. The supplemental EIS will also update the Final EIS reasonable alternatives and will address changes in applicable laws, regulations, and approvals. DOT&PF anticipates the SEIS process will take approximately two years, with a draft SEIS released in late 2012, a final SEIS released in mid 2013, and a new Record of Decision (ROD) approved later that year. DOT&PF has contracted with the firm HDR Alaska, Inc. to prepare the SEIS and many of the required supporting documents.	PDSEIS for Cooperating Agency review expected January 2014.  DSEIS expected February 2014.	<b>EPA is currently reviewing the PDSEIS.</b>
